## Are you covered when you use an aircraft owned by someone else?

Did you know that there are approximately 7 pilots for every one airplane registered for general aviation use? Therefore, most GA pilots need to rent an airplane when they take to the sky. The owner's aircraft insurance policy protects the owner from his or her mistakes, but what about the pilot renting the airplane? What happens if the owner's policy does not include coverage for "permissive pilots"? Or, what if the aircraft is underinsured or uninsured? More than likely, you'll be on the hook for the damages. So you need to ask yourself, "*Can I afford not to be insured?*"

AIG Aviation, the leading insurance company for general aviation, offers the most comprehensive non-owned liability and physical damage insurance that you'll need.

- Personal Renter's Liability Coverage—pays for the bodily injury and property damage for which you are legally liable.
- Flight Instructors Liability Coverage—pays for the bodily injury and property damage for which you are legally liable including your legal liability as a Flight Instructor.
- Liability Coverage for Non-Owned Physical Damage—pays for the physical damage to a non-owned aircraft for which you are legally liable.
- Civil Air Patrol Endorsement—expands coverage for your involvement in sanctioned Civil Air Patrol activities.

## Here's what you need to do

1. Complete the information under parts 1 & 2 of the enclosed application.
2. Add the premium totals in parts 1 & 2, add the applicable tax (if required). Then calculate the total premium and enter it in the space provided on Part 3.
3. Sign the application, enclose a check payable to your agent, tape closed and mail to your insurance agent.
